

ELITE LM PRO

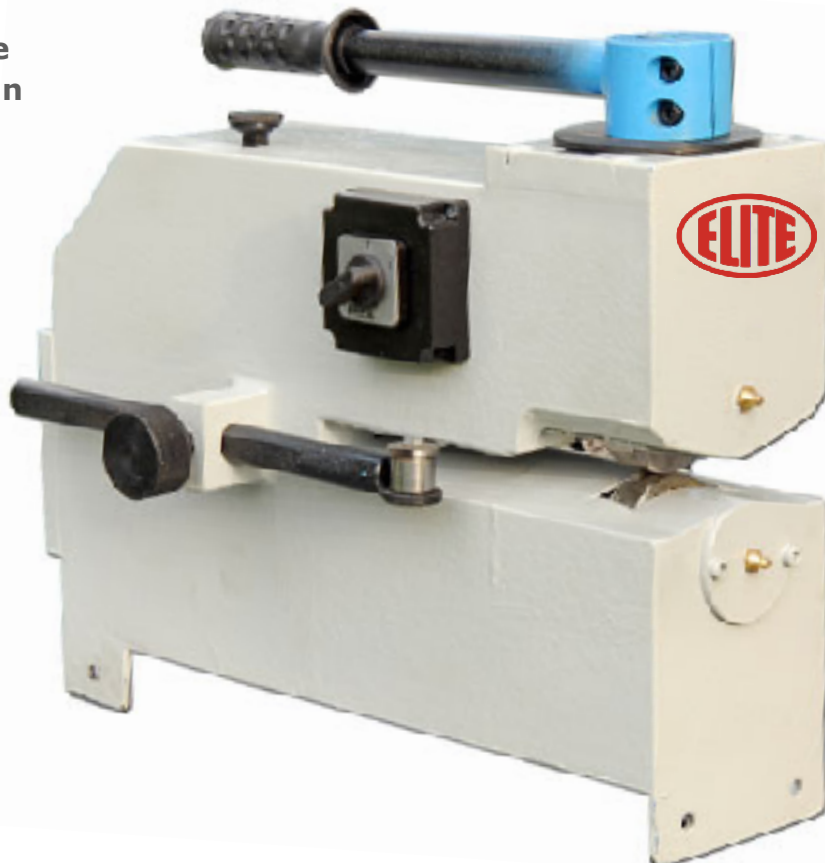

Economical roller band saw tensioning machine

Equipped with 0.75 kW (1 HP) motor for precise band saw feed

ELITE LM PRO

ROLL BAND SAW TENSIONING MACHINE

**Working table
available as an
option**

The **ELITE LM PRO** is specially designed for tensioning and hardening of band saws, thus freeing the saws from deflections and deformations.

It is equipped with a 0.75 kW (1 HP) motor to ensure precise feed of the band saw. It can also be equipped with the workbench as an optional configuration to ensure the adjustment and tensioning of the saw body.

Why is tensioning necessary? Tensioning allows:

- Adjust the saw to the guides.
- Ensure the durability of the saw body
- Maintain all the faces of the teeth.
- Prevent reflections from the saw while cutting.
- Ensure a precise cut.

Technical specifications

Band saw width	Up to 250 mm.
Feed up speed	Up to 7050 mm. / min.
Motor power	0,75 kW (1 HP)
Net dimensions	400 x 510 x 400 mm
Net weight	90 kg.

As additional equipment

Workbench with measurements	2000 x 3150 x 600 mm And 125 kg.
Available connections	400V / 230V 3PH 50/60 Hz

Main advantages

The ELITE LM PRO is our economical band saw tensioner which, thanks to its 0.75 kW (1 HP) motor, allows for precise sawing feed.

This enables a saw blade feed speed of up to 7050 mm/min.

In addition, the optional equipment of the workbench ensures the proper adjustment and tensioning of the saw body.

Its excellent price/performance ratio makes it an indispensable piece of equipment for all types of sawmills.

We reserve the right to make design changes in the interest of technical progress.
